ParagonLED®

Company Profile

- 2008 – Company founded, establishing its focus on advanced AC COB LED technology
- 2010 – Achieved the world's first CE certification for AC COB LED technology, setting a global benchmark.
- 2011 – Recognized as the first to gain both FCC and ErP certifications for AC COB LEDs.
- 2012 – Introduced the world's first AC COB LED explosion-proof lighting and obtained UL certification.
- 2013 – Attained ISO9001:2008 certification and established the world's first 3V–300V AC LM80 laboratory, certified by DOE and Energy Star.
- 2016 – Expanded to an annual production capacity of 6 million units, reinforcing large-scale manufacturing capability.
- 2017 – Set up the world's first 600V AC LM80-certified laboratory, further strengthening reliability testing infrastructure.
- 2019 – Developed the world's first ACCOB light engine with $T_c = 145^{\circ}\text{C}$, marking a breakthrough in high-temperature LED technology.
- 2020 – Deployed the extreme-environment ACCOB light engine (-80°C to $+115^{\circ}\text{C}$) into commercial operation at U.S. paper mills and steel mills. By 2025, more than 60,000 light engines have been successfully installed in these facilities.
- 2023 – Became a subsidiary of the AVC Group, enhancing global resources and thermal management expertise.
- 2025 –
- Completed the world's first flip-chip ACCOB light engine designed for extreme temperatures.
- Radiation-Hardened lighting successfully passed 1000 kGy gamma radiation testing at the National Atomic Energy Research Institute (NARI).
- Targeting PSE certification (100V/200V) for the Japanese market and UL certification (120V–600V) for linear models, paving the way for global expansion.

**Safe, durable and now
available with AC-LED
technology for superior
reliability.**

ParagonLED lighting is known as high quality industrial lighting fixtures designed, tested and certified for use in high temperature locations and adverse environment conditions. Specifiers rely on ParagonLED to safely provide light where it's needed - even under the harshest indoor and outdoor conditions. Safe, dependable, durable ParagonLED luminaires are now available with LED technology to offer longer life, enhanced energy efficiency, reduced maintenance, and a smaller footprint.

ParagonLED Mounting Hood

ParagonLED®

Seamless Upgrade to Next-Generation Hazardous Zones Lighting

Key Features:

- **Retains Original Mounting Structure.**

Utilizes a dedicated adapter plate for seamless installation without modifying existing wiring or mounting setup.

- **Built-in ACCOB Module for High Energy Efficiency.**

Integrated smart AC COB technology significantly increases reliability while maintaining stable light output.

- **Extended Lifespan with Surge Suppression.**

Advanced thermal management and surge protection extend the lifespan of both LED chips and components.

- **Explosion-Proof Certified for Hazardous Locations.**

Meets international explosion-proof standards, suitable for hazardous environments such as C1D2/C2/C3.

IP68

120/180W 70° beam angle

14,400~21,600lm, IP68, Metal Reflector
Tempered Glass,
5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

120/180W 110° beam angle

14,400~21,600lm, IP68, Metal Reflector
Tempered Glass,
5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

105W/210W 150° beam angle

12,600lm~25,200lm, IP68, Metal Reflector
Tempered Glass,
5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

105W/210W Omnidirectional

12,600lm~25,200lm, IP68, Metal Reflector
PC lens
5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

IP68

70/140W, Type I

8,400~16,800lm, IP68, Metal Reflector
Tempered Glass, 5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

80W~140W, Type V

9,600lm~16,800lm, IP68, Metal Reflector
Tempered Glass, 5000K color temperature
rated C1D2/C2/C3,
Operating temperature: -80°C to +115°C
>20KV surge protection

AC COB LED module

ParagonLED®

120~180W 70° beam angle

120~180W 110° beam angle

105W/210W 150° beam angle

105W/210W Omnidirectional

1. Operation Temperature: -80~115°C
2. >20KV surge protection system built-in
3. Die cast aluminum fixture
4. Reflector: high performance stainless steel
5. AC COB High Temperature Resistance
6. AWM Style 4476 silicone power cord rated for 600V / 200°C.
7. Double isolation wire for LED engine (PTFE)
8. High temperature COB lighting PBT plastic ring
9. Certified ceramic terminal block
10. Stainless steel Cable gland
11. LOCITITE Threadlocker 243 for screw fixing
12. Complies with LM80 testing at multiple temperatures: 55°C, 85°C, 105°C, and 145°C.
13. IP68 waterproof
14. IK 10/ IK 10++
15. Zero Inrush Current
16. FCC/UL1598/UL844/CB/PSE
17. Anti-vibration compliance to NEMA ANSI

C136.31

TTL Getter System (optional) — extends lifetime to 3 years @105 °C. It continuously absorbs residual oxygen, moisture, and gases released from internal materials under high temperature, preventing oxidation and degradation.

Module Replacement Solutions

ParagonLED®

IP68

Compatible adapter and lock mechanism

ParagonLED provides hood replacements compatible with six established brands, Field-replaceable

LED heatsink mounting screws

Stainless steel screws to fix LED housing.

AC input connection wire (L/N/G)

- Contractor-friendly design is retrofit replacement.
- Easy to retrofit using existing HID Champ mounting module

Gasket

silicone gasket

LED Heatsink

Die cast aluminum LED housing provides efficient thermal path to heat sink assembly

ParagonLED AC COB LED module

Game changing proprietary driver-on-board LED modules are replaceable for extended fixture life and lower cost of ownership.
